

# Electric instantaneous water heaters

## PPE4.B electronic

**4 in 1**  
10/11/12/15  
17/18/21/24  
kW

**27**  
kW

**30-60°C**

Water heaters with electronic control and a temperature adjustment knob.

### Applications

### Most important advantages

#### Electronic control

- precise and comfortable temperature regulation in the range of 30-60°C

#### 4 power levels in one water heater

- option to select maximum power (except for 27 kW model)

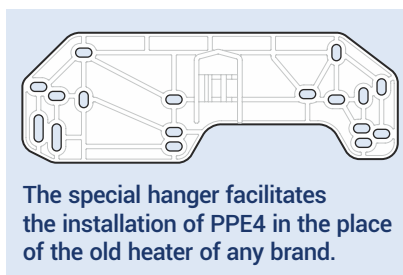

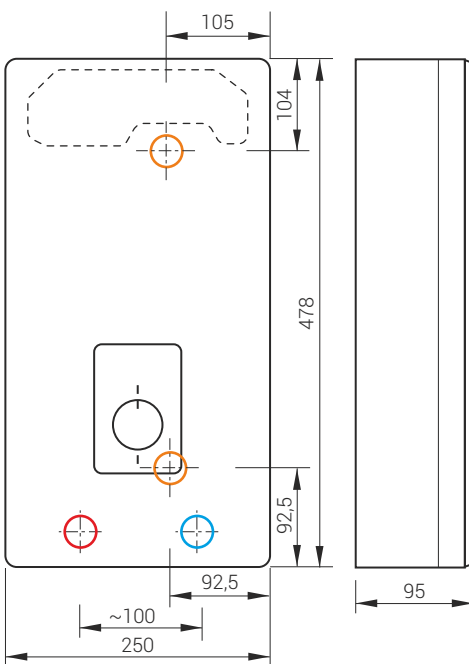

#### Possibility of reheating preheated water

- water temperature up to 60°C on the supply

#### Easy replacement of the old heater with a new one

- specially designed PPE4 housing equipped with a unique hanger allows for easy installation of the heater in the place of the old one.

### Dimensions

Inlet and outlet section G 1/2"

cold water inlet

hot water inlet

electric cable connection point

### Technical data

Type	Rated power / Rated voltage	Supply water pressure (MPa)	Rated current (A)	Min. connecting wires section (mm <sup>2</sup> )	Efficiency (Δt=30°) (l/min.)
